I love the Jack Mars series. I am a big fan of "series" type books. I like to get to know the characters and look forward to a new adventure. The Luke Stone series fits all my needs: action, strong character development, can’t put down story. I highly recommend reading this series.

Great series. Read all the books and always waiting for the next one.

This series is great, but this installment seems to be written differently and I did not enjoy as much as others. The author definitely tries to mimic the recent election in the USA, but too many outrageous claims, like the candidate running on the need to immediately declare war on China by dropping nuclear bombs on islands in the South Seas. There is some good action and well liked characters, but too much political discussion. I am hoping the next book is back to the thrills as the first four contain.

Fast moving plot.....keeps you waiting for the next twist ..... Looking forwarded to next book. Hope it will be even better.

The continuing saga of Luke Stone and his friends finds them set into some timely storylines to keep

you interested. Familiar characters and somewhat plausible happenings to you entrenched in an interestingly active story.

Can’t wait for next book in the series to be released. This is a great read, and helps me pass the time since foot surgery. I know my husband will enjoy these books too. We enjoy finding good authors and reading and re-reading books after some time has passed.

This series is always fast paced and full of action. A great series.
