Synopsis

When a British computer hacker finds his name coded into a centuries-old manuscript, TimeRider Maddy recognizes it as the same message she had also been sent. Sure it must be communication from other TimeRiders agents, she sends Liam and the two support units back to Robin Hood's time to search for the fabled document-possibly the Holy Grail. But as a war begins to brew between King Richard and his brother John, Liam unwittingly takes on the role of the Sheriff of Nottingham and discovers that the mythical Robin Hood may have been another support unit all along. This action-packed reimagining of the Robin Hood legend, weaving elements of religion, alternative history, and time-travel ethics perfect for fans of The DaVinci Code, is a page-turner old fans and new ones alike won't want to miss.

Book Information

Lexile Measure: 800L (What's this?)

Series: TimeRiders

Hardcover: 432 pages

Publisher: Walker Childrens; 1 edition (October 16, 2012)

Language: English

ISBN-10: 0802733840

Customer Reviews

Ã¢â ¬Å“An interesting premise populated by engaging, well-developed characters.Ã¢â ¬Â• Ã¢â ¬â ¢Kirkus Reviews on TimeRidersÃ¢â ¬Å“This is a brilliantly paced, fascinating look at the ways in which one seemingly small change can ripple out to-literally-the end of the world.Ã¢â ¬Â• Ã¢â ¬â ¢BCCB on TimeRidersÃ¢â ¬Å“Another wild ride through time. ... Scarrow blends adventure

with history in a way that goes down painlessly. Readers will be intrigued, puzzled-and ready for the next one.Ã¢â ¬Â• Ã¢â ¬â ¢Kirkus Reviews on TimeRiders: Day of the Predator --This text refers to the Paperback edition.

ALEX SCARROW has been a rock guitarist, a graphic artist, and a computer games designer. He is the author of several adult thrillers, including Last Light and A Thousand Suns. The TimeRiders series is his first for young adults. He lives in England with his wife and son. www.timeridersbooks.com

I've enjoyed reading the TimeRiders series from beginning to end. After finishing the final book I wanted to go back and rate them in the order I liked from best to not as best (I don't think any are bad overall).1. 3rd book The Doomsday Code.2. 1st book TimeRiders3. 5th book The Gates of Rome4. 2nd book Day of the Predator5. 8th book The Mayan Prophecy6. 6th book City of Shadows7. 7th book The Pirate Kings8. 9th book The Infinity Cage9. 4th book The Eternal WarThis is not a suggested reading order just my personal preference of the books in the storyline. I really liked 4 of the first five books because of the combination of historical locations and of course the time travel. Book 4 got the lowest rating because of what I considered a poor representation of my favorite President. The author is British so that might explain it. After book five I wasn't as engaged because for the next two books the characters aren't really on a mission anymore. I felt the new "home base" was a ridiculous location both physically and time wise. The last two books are really just about wrapping up the storyline and like I said originally they aren't bad but it's obvious that the adventures are over. I wasn't that thrilled with the ending. It's not horrible but I think the characters deserved more than they were given. I know this sounds cryptic and I should have posted this under The Infinity Cage but The Doomsday Code is my favorite book in the series. I want to encourage everyone who reads this to read them all then try to rate their favorites too.

Confusing at first, but the story soon becomes a nail biting adventure.

The Time Riders series is a great read for ages 12 and up. They are fun and have a bit of history in them. This series is an older version of the Magic Treehouse Books-with some intense action and a few creepy characters. As a former middle school librarian I can recommend these books!

My son can't wait till Christmas to get it so he can begin reading it. Thank you, Alex Scarrow for

continuing the series and helping to keep our kids excited about reading!

My 11-year old son likes to read, and with this book series he LOVES to read. The only downside of these books is that he wants to stay up too late - reading!

THIS IS A CHRISTMAS GIFT FOR MY GRANDSON.

Do you love time travel blended with historical setting and futuristic tech? This is for you!! So well written and intriguing. I have the entire set and am reading next book now!

Was a good book but I didn't read the first one in the series so it really took awhile to "get into it." Think it would have been even better had I read the first book.
