Customer Reviews

This is a great book to help you study for your written test.You get more than 200 real DMV questions and the answers in the back of the book.I like how the questions are separated into different subjects - road signs, driving, regulations....So full 5 stars on the content.What I don't like is that the Kindle edition is a little too bulky to use. You would normally do 10 or 20 questions, check the answers, then do 10 mor.There are no links to the answers, and as the answers are all the way in the back, you spend half your time flipping back and forth.I got another DMV practice test - The

New York DMV Driver Test Q & A. All the questions were separated in groups of 10, and at the end of each group you have a link to the answers for that group. Then you have a link from the Answers section back to where you left off in the Questions section. That makes it very easy to go back and forth and actually prepare for the test.In terms of the questions themselves - they cover pretty much everything.I also got the DMV app from - I like the app the best to be honest but this book was a good complimentary preparation.I would recommend this to anyone trying to get a drivers license in NY

Some questions were repeated but not a lot. Also, this book had a few typos which makes me feel as though it was rushed. Overall, this seems like a good study material to supplement other study materials. I have not yet taken the written test to say how helpful it is.

not much use for a car in the city but for us in upstate NY very important to pass!

Well known author, succinct and reliable questions

Great guide! Very cost-efficient!
