Customer Reviews

I was very disappointed, it had less info than the instructions that came with the rock polisher itself. Sorry, but I considered it a waste of money.

It should be against the law to put such a terrible book on sale. It makes a joke out of kindle. If you can’t give value don’t sell it.Mike Hall

So basic that unless you are a total beginner, don’t waist your money. This is an article, not a BOOK!

I paid for this book and cannot read any farther until I rate! Wow oh and it has to be at least 20 words so this is filler.

It took me two minutes to read this book about nothing. I was fooled by the, "Idiot's Guide" in the title, thinking it was an official " Complete Idiot's Guide" book. But, it's not. It can't be. The author ought to be ashamed of fooling people and charging for it. I could have written a better guide than this using the wealth of information from the internet and instruction manual that came with my tumbler. Except, I would charge for information that takes one hour to research and 30 minutes to write.

Directions not detailed enough. I was looking for more on use of more advanced machine e and supplies. Thanks you.

Pretty good read.
