Synopsis

SURVEY OF ACCOUNTING, 7E provides an overview of the basic topics of financial and managerial accounting, without emphasizing the use of debits and credits. Written for individuals who have no prior knowledge of accounting, this text emphasizes how accounting reports are used by managers, investors, and other business stakeholders. The unique Integrated Financial Statement Framework shows how transactions impact the three primary financial statements, showing the integrated nature of accounting.

Probably the second worst textbook a college has forced me to have to use. The Cengage product (purchased separately) that accompanies the questions in the book is an unapologetic cash grab full of poorly worded questions, incorrect answers to its questions, and is apparently the torture of choice that apathetic instructors pass off to the students whilst shrugging their shoulders when complaints arise. Do *not* expect a good experience with this book, and potentially do *not* expect a good experience in the classroom if your college was greedy enough to make you experience this or the Cengage product while they line their pockets on your debt.

Great

easy to understand with lots of study guides for folks like me who want to run away from the word "accounting"

Not much to say here, the school says I need the book so here we are. I will say that the text is well written and the companion on-line course is VERY helpful in mastering the concepts of accounting operations.

I used his book for my accounting class and it was a great rent. A lot cheaper than a hard copy and was the exact same as the real one. I would definitely use more books like this

The book arrived earlier than expected, it looked almost new; except for a rip on the front cover, other than that I was happy with my purchase. It was a book I needed, before the holiday, since I had assignments pending.

Everything works great and seems to be good quality for the price. No complaints.

Its in good shape for being used.I was very impressed. I would definitely order online again. I was able to get my school work done on time.
