Customer Reviews

it is too basic, to be honest I can just see 2 basic diagrams. It is not useful.

.This is a very good book , it’s really handy . It explains the electrical circuits in more simpler terms than other books

fast delivery

This book, have drawing about how to connect motors,in a delta star method, or the old way. But it is good to have this book, took look up imformation,

well, i like this document because is very interesting for me at the university. has many PDF like this and i’d read all of them

Basic lecture and example, ok if you are a beginner, simple lecture, good illustrations, nice sequence and explication, for technicians
