I bought this book for my brother's birthday and since it got here early I decided to check it out. I've already read the entire book and I'm obsessed with it! First of all the book it's self totally looks like it was made by a kid himself, although some of the dragon art work is amazing while others look like sketches. This book also contains all known information on all of the known dragons! It's the coolest thing ever. If you know anyone who likes dragons, they will love this! Even my parents want to borrow it :)

This is a fun "hand illustrated" and "hand written" book about lots of different dragons. There is a fold out map of the Berg Islands in the back. There are a lot of different dragons represented in this book. There is even an index at the back as a quick reference about all the different dragons from the book series. I was disappointing this is not a complete list of dragons associated with the Netflix TV show series and movies How to Train Your Dragon. This is still a fantastic product. My 5 year old got it for Christmas and he has not been able to be pulled away from sounding out the words and reading to himself on the couch!

I was actually hoping tgis was going to be like the one put of the movie, vut it is bases on the books. It is actually a riot to read and interesting what Hiccup went through for his book. Very thorough and some scary pictures but overall a good book and even at my age I enjoy it. I collect silly dragons for my displays at car shows to make people and children laugh as well as myself, see I have several illnesses with no cure. And I need the laughter too and to make someone's day, sgow them the car the talking dragons and now I have added some of Hiccup's dragons. The children love it.

Really cool book. The illustrations are absolutely gorgeous. The whole book is really beautiful and gives the impression of almost being an art book. I dug it! My nephew read it many, many times now.

Awesome little book that really opened up my sons love of dragons

My children are enjoying this book.

My Grandsons love these books.
