Customer Reviews

The experts at The Princeton Review have been helping students, parents, and educators achieve

the best results at every stage of the education process since 1981. The Princeton Review has helped millions succeed on standardized tests, and provides expert advice and instruction to help parents, teachers, students, and schools navigate the complexities of school admission. In addition to classroom courses in over 40 states and 20 countries, The Princeton Review also offers online and school-based courses, one-to-one and small-group tutoring as well as online services in both admission counseling and academic homework help.

Great read. This provides great information, and allows prospective students to get a good understanding of what various universities are like. Definitely recommend!

Quite awful. It’s just adverstisment space for poor business schools. There’s not even a ranking of the best schools in this book. Would not recommend

This is a very informative book. It is up to date in the details that are given about the business schools in the US. You can even make comparisons between the schools so as to make it easier to decide in which school you’ll be attending. As a muslim I love the part of the book where it also shows the ratio of males to females in the school itself. This helps to give an idea as to whether I want to consider enrolling in the prospective school of my choice. I would recommend this book to anyone who is definitely interested in considering their enrollment of any business school in the USA or even just to have for the sake of offering information to others. It’s a must read if you are interested in knowing how much you can make after graduating from the school of your choice and also what companies are hiring graduates from that school. I would definitely recommend this book. I had no problems at all with the delivery of this item. Thank you very much.
