Good text, it really explained the concepts of conflict resolution really well. It's best to supplement this book with Getting to Yes! so you have the whole nine yards when it comes to conflict resolution. Some people said that this book is full of common sense information, but while some of it may be common sense to us, you'd be surprised by the amount of people who have no idea how to handle conflict. It's a good, affordable book that I would recommend you purchase whether you're a student or someone who just wants to learn these skills. It is VERY adaptable to situations outside work and etc. Heck, it helped solve a conflict between my friend and I!

I have no complains at all. I am an international student and this book is required for one of my classes. Fast delivery, good condition, good price.Everything was just fine and dandy.

Great

I want my money back

Perfect !!!

Heavy product with good balance as description. very recommend . for my best friend, fast shipping.
