"How I wish we could sit face to face over a cup of coffee. What awesome stories I could tell you about people who have studied the names of God. As you discover the names of God, I believe you will have a story of your own!" --Kay Arthur

I read this book many years ago and it brought about a turning point in my life. I did not realize that just as I have many names.... Mom, Hon, Sheri, Mrs. .... God has many names. Each of His names defines part of His character and provides the answer to every situation we experience. He is "I am that I am".... He is whatever we need Him to be. His names are not only a place of safety for me in times of trouble or need, His names have become a way to worship who He is and not just what He has done! Different seasons in my life have brought about a different focus for me in regard to His name. Sometimes I need His peace and I call on Jehovah Shalom. Other times I need to be secure in the fact that He alone is in control of my life and my situations. You get the picture. I reread this book to remind me of details that I might have forgotten and have enjoyed the study as much as I did years ago. It is worth the time to read and it will make a difference in your walk with Him!!!

This is a GREAT book that every believer who wants a deeper walk with God should read. It makes a big difference when you can call on your Father with a name that is specific to your need. There is power in a name and this book really explains and causes you to think too, something that doesn't always happen. The questions in the study are pertinent and are easy for a group study or solo. Think about this if you are on the line: "Because he loves me, says the Lord, I will rescue him; I will protect him, FOR HE ACKNOWLEDGES MY NAME." Psalm 91:14

Love this book... use it to teach myself and youth about the many facets of our God... Knowing Him more and learning about Him more helps to brings a reality of the very existence of God in your own life. Kay does a very good job of teaching us great foundations to lay down and grow in the knowledge of Him.

"Lord I Want to Know You" is a devotional Study of the Biblical names of God. It is also suitable for group study which is how I am using it. I have led the study once before and it is indeed a life changing study. This summer I will be including the teenage children and grand children of those attending as it is appropriate and helpful for both adults and teens as we all travel together on this journey called life.Precept Ministries can always be counted on to produce life changing studies because they are inductive studies based upon the Word of God and as such allow students and leaders alike to "plumb" the depths of Bible Truth and own those truths so as to properly apply them in their lives.As the author, Kay Arthur, states in the introduction; "So much of our confusion, our pain, our indecision, and our wrong decisions come because we do not know God. We may know about Him--but do we know what God says about Himself? Do we know for ourselves who He really is and, therefore, how He conducts Himself in the affairs of mankind?"She goes on to state: "But with 'Lord I want to Know You' all that will change. When you know God more fully by studying His names - Creator, Healer, Protector, Provider, and many others--you'll gain power to stand strong. You'll find strength for times of trial, comfort for pain, provision for your soul's deepest needs. And your walk with God will be transformed."In biblical times a persons character was revealed in his name. This study examines God's character as revealed through fifteen names used to describe Him in the Bible. Written in a practical workbook format, this study guide on the names of God will bless you as it involves you in the learning process. Discussion questions at the end of each chapter help students to review and retain the material covered.You will be blessed as you deepen your knowledge and understanding of the Bible and learn to trust God as He proclaims His name and makes all His goodness pass before you (Exodus 33:19).

This book has 17 chapters in it an is structured in a way that you could do it with a small group or individually over 42 days or even faster at your own pace. I went through the book on my own, at my own pace, and managed to complete the book in about 10-12 days. Each day is there is a small amount to read and some questions to answer. If you did it in 42 days, it would probably be about 7 to 15 minutes of work each day, so it is quite do-able even if you wanted to do 2 or 3 days at a time.As for the content of the book, it is wonderful. Kay Arthur goes through 14 different Names of God, each one revealing an aspect of the true nature of God. As I read through the bible it became apparent how important God's "Name" was to Him and others. A name carries a specific weight. So I knew that by learning more indepthly about the Names of God and how they developed that it would lead me to a greater understanding of God and a closer relationship with Him - and I have not been disappointed. This book is wonderful. It was recommended to me by a friend who did this as a

group study back in the 80’s, so the book has been around for a while. I have referrence this book many times since completeing it, even sharing the infromation at bible studies to the amasement of others. It is a wonderful book and I would highly recommend this book to anyone, especially those who would like a deeper understanding of God and a closer relationship with Him.Kay Arthur also referrenced a book called "Names of God" by Nathan Stone, originally written in 1944, in this book. After finishing this book I read Stone’s book and it is no doubt where she found a lot of her information for "Lord, I want to know you". I would recommend starting with Kay Arthur’s book as it is a much easier read, but Stone’s book is also great as a follow-up.Happy reading!

In her typical style, Kay Arthur assists the reader to explore the names of God in a conversational fashion. We bought several of these for a women’s Bible study, and it has proven to be everything we needed it to be. I highly recommend this book for anyone considering either a group or individual study.
