Great book. A must have even if your state now allows gay marriage, because not all the laws are set in stone yet. Looking forward to the day when I can throw this out because gay marriage and parental rights among gay people become equal for every person in every state. Vote wisely!

Book was here very fast, it was as described as in like new shape and it was! Nothing wrong with book at all. Very pleased and would order from again!

This is a very helpful book for anyone who needs information about these legal aspects. We are very glad that we purchased this book.
