I bought this for my niece turning 18 this month. I of course had to look through it as I love John Tommervik’s work. I have no doubt she will love this book, the 30th cannot come soon enough! The sayings are great, and I think it’s the perfect book for her, and all the coming life experiences she will be facing! Typical John Tommervik genius! I would highly recommend this book-I may even beg for one the pages I really liked, if she doesn’t mind parting with it!

This is by far one of the best artists out there for adult sweary type coloring books. His books are high quality with some really kool artwork. His other book Fucksicles is great too. I have both editions of it. You must check him out

I absolutely love these adult coloring books and my daughter is a really big fan of them. I have

bought several of these for her birthday and as gifts. She is grown with kids of her own. They are loaded with adult language, so keep out the reach of children. The cussing in it may offend some. These books are hilarious, if you have a sense of humor, you will love them too.I paid full price for this book and I think they are a great price.

Gotten into coloring as end of day decompress time. Must admit swear words coloring is cathartic. Bad day experience, tough interactions, bad meetings and enduring overall tough days I channel into this. It's For me alone. Kinda like typing that angry email, that lets out all your anger at someone or some event, reviewing it and deleting it. You wouldn't send it (as much as you're tempted to). I find if I take a breathe, step away and color my feelings (through swear words pictures, yes), I get space I need to, can take that breathe, lighten up a bit and move on. Or at least figure out constructive ways to deal with a bad situation.

This coloring book is AWESOME! Not only have I bought one for myself, but I've purchased a few as gifts. Can't help, but smile when coloring...even if you color with your tongue sticking out! Lol

Another one of my favorite color books. Adult coloring books are the best for people that are angry. It really does help clear the mind. Pages are clear and easy to color.

Totally radical book!! It will perk your day up!! So get your copy and get your friends copies! They will love you for it! :-) Then start coloring and hanging some of these around the house!!

This is announced as a motivational coloring book and boy, it is! This is different than your normal swearing coloring book. Even though there are swear words in it , they are compiled into motivational phrases meant to pick you up and give you reason to move on. The pictures may not be terribly fancy but they are fun and relaxing. This is a great book to have to color! It arrived under the final arrival date and was in great shape, thank you.
