Synopsis

Secret adventures from the world of Infinity Ring. Only in e-book! Only 99 cents!Ferdinand Columbus is the son of the world’s most famous explorer, but that doesn’t mean he’s cut out for adventure. His worst fears come true when he and the rest of his father’s crew are stranded on an island far from home. Surrounded by sharks and running low on supplies, the sailors seem doomed. But does the son of Columbus somehow hold the key to their salvation?INFINITY RING SECRETS is a series of stand-alone short stories blending real history with the action and suspense of the INFINITY RING series. History is broken, and only the secret society of Hystorians knows why . . . and how to fix it. These are some of the stories!Read all seven digital short stories to unlock an exclusive medal for your INFINITY RING game account at scholastic.com/infinityring.

Customer Reviews

This is part of series Infinity Ring serving as e-book supplement to regular books. Was not certain if these short supplements would be worth price. Although bit expensive compared to some e-book

supplements will purchase balance as the kids are big fans of series. With summer readings arrival this will serve to keep readers interested and active. Way to create interest in history.

The Infinity Ring Secrets is a series of short stories that provide some backstory around Hystorian and SQ activities during various historical events or time periods. Daq, Sera and Riq are not involved. They are nice quick reads, although some are better than others. I enjoyed this one that involves Columbus and his two sons on a follow up voyage to the new world.

5 stars A awesome book Packed with tons of adventure and history and more facts that you may not have known.

slow witted

easy read

A good learning tool. Should keep younger kids entertained for an hour or so. The moon always returns, every day

Learned some history I didn't know. Enjoyable and fast read. Recommend for kids who like to read. Some good adventure in it.

Love this little short story. Quick and to the point. A perfect filler while wating for the next full length novel. Can't wait to read the next 6 in the series. It would be neat to see them all compiled in a hardcover, ya know to look good on the shelf with the others.
