Synopsis

Brighter ChildÃ Â® Division 0 to 12 Flash Cards offer children a fun and easy way to practice their division skills. The set features 54 cards with two division problems each, their answers on the opposite side. Bright, bold numbers are placed on a white background for easy reading, and a special card also offers creative game ideas designed to reinforce learning.The popular Brighter ChildÃ Â® Flash Cards give children a fun and easy way to practice important skills. Offering 24 titles encompassing preschool to grade 5, each title focuses on an important subject including early concepts, math, phonics, and U.S. History. Fun game ideas and learning suggestions are included to help children build proficiency and confidence. Game cards also allow children to develop thinking, decision-making, turn-taking, and social skills while playing fun games at the same time.

Age Range: 8 - 11 years

Grade Level: 3 - 5

Customer Reviews

After searching locally for flash cards I found this online and they had great ratings so I decided that I would purchased them for my granddaughter to assist her with her math. They are definitely worth the money because we use them daily to help to strengthen her math skills. These flash cards are definitely an plus in helping kids to learn math facts.

They were okay, but not great. Idon’t know why, but my daughter had a hard time with these cards compared to a different set we bought, we do still use them once in a while but not overly impressed with how my daughter reacted to them.....but she is all about presentation and it’s hard to explain.

I use these for tutoring elementary aged kids. Nice quality and I like that they go through 12 instead of 10.

These are great flash cards for my third grader to remember her math facts. One side is more laminated and the other more matte. The problem and solution are written on the back in small font so that you can see the problem and answer while showing the flashcard.

have helped, my grandson knows so much at an early age. Above all of his class.

Purchased these along with multiplication cards. Apparently rote learning is passe, which explains why my granddaughter can’t rattle off her times tables orally. Will be put to use in Grandpa’s Math Boot Camp this summer.

These flash cards are easy to read and easy to hold in elementary school hands. We use these every night to practice math facts with my second grader.

I bought a class set of these so students could partner up and practice their facts. They worked great and held up nicely.
