Synopsis

Since William Penn’s founding of Philadelphia as a "greene countrie towne," thousands of acres of public gardens and arboretums have spawned in and around the city. Fairmont Park is the largest in any American city; even Philadelphia’s zoo is a splendid garden and arboretum. Many gardens in the region were first cultivated by early Quakers and include historic, restored homes dating to the early 1700s. Includes location and detailed site information with common and Latin names of all species photographed and features stunning, beautiful, and artistic full-color photography.

An excellent guide to the gardens around this, one of America’s oldest cities. A visitor’s delight to a slew of amazing plant and tree sights that have been developed by citizens and foundations that you can visit and enjoy.

this is a most helpful guide to area gardens and we hope to see them all over time we have been pleased with the ones we have seen.
