Wow, there is quite a variety in this book. Simple to complex, and cute to scary--a little something for everyone. Some of the pages are easy enough for a child, and some more intricate and suited to an older child or adult. Only a few are really creepy like the cover. (I uploaded photos to try to show the diversity).The pages are:-Single sided (no printing on the back) which is good since some markers bleed through.-Bright white, smooth paper-60 designs-Most designs are large scale enough to be suitable for crayons, colored pencils, even pastels-Only a handful of the designs are intricate enough to require fine tip markers

The cover of this book would lead you to believe it is more for adults, however, many of pictures inside are very simple and boring. This does not rise to the level of what I would consider a coloring book for an adult. There are a couple of really nice pictures, such as the one on the cover, but the vast majority are much, much too basic and simple. I will likely be returning it, as I feel the $10 price

tag is not worth the images it included.

Halloween (or basically the spirit of Halloween) is my favorite "regular" holiday. I could deal with horror movies and horror books and horror stuff year ’round! Now I can!! THERE IS SO MUCH TO COLOR! The images take up the whole or the majority of the page which is TOP NOTCH STUFF in my book. They didn’t skimp on imagination of ink. I’m looking forward to coloring these images.

The image on the cover is the only "adult" and detailed illustration in the book. The rest are pretty standard coloring book stuff. If not for this one image I’d say it was a kids’ book. The quality of the book (paper, binding, etc) overall is good.

One of my First ever coloring books. I love this book and I almost have it all the way done now. Back in 2015 when I ordered it , it had a totally different cover. I almost didn’t write a review because I didn’t get this one but going back through all of my past orders I found it but with a way different cover on it. Still a great coloring book to have !

Nice kind of thick book with one-sided picture pages so you’re given the opportunity to take them out and put them on your wall or fridge, or give as a gift.

cool

The best artwork is on the cover. The cover misled me into believing that ALL of the art /designs in the coloring book would be the same caliber as the artwork on the cover, this was not the case. I would not buy this again and I definitely would not recommend it to anyone I know, lesson learned. I won’t be purchasing anything published by Penny Farthing in the future.
